

PROJECT MANAGER GERMANY (M/W)

● Job description

1 year fixed-term contract

Location : Paris/la Defense

1 to 3 years professional experience

Availability : less than 3 months

Entity :
EDF Renewables

You will report to the Project Director NORTHERN EUROPE and take over the development of wind and solar projects in GERMANY.

Your role will mainly consist of the following:

- ▶ Ensure the follow-up of projects in collaboration with local entities and partners.
- ▶ Participate in the reporting of the zone's activity.
- ▶ Manage and coordinate the studies necessary for the development of projects (internally – technical department, procurement - and externally - lawyers, consultants).
- ▶ Prepare business plans and investment papers.
- ▶ Participate in the management of calls for tender in the region, in collaboration with local teams.
- ▶ Study opportunities for partnerships and project acquisitions at various stages and progress through detailed due diligence (technical, legal, financial, risk, etc.).
- ▶ Participate in the negotiation of project documents: PPA, construction, operating contracts, etc.
- ▶ Contribute to the preparation of project financing
- ▶ Regulatory and market monitoring in the region

Frequent travel to Germany is to be expected.

● Skills and qualities required

Professional experience : 1 to 3 years of professional experience in project development and or project management, finance, M&A. A firsthand experience in modeling would be an advantage.

Education background : minimum of 4 years of higher education

Languages : Fluent German (written / spoken / writing) and English. Fluent French would be a plus

Qualities required: Analytical skills, autonomy, very good people skills in a Franco-German environment, involvement and rigour, strength of proposals, efficiency, ability to carry out several projects in parallel and to prioritize.
